EXPERIENCE(2 years)

Power Bi Developer
At Ansumiti Technosoft
Nov 2023 - Present

- **Report Development:** Create, deploy, and maintain Power BI reports and dashboards tailored to business needs.
- Data Modeling: Design efficient and robust data models to optimize reporting performance and scalability.
- **Data Integration:** Extract, transform, and load (ETL) data from diverse data sources such as SQL Server, Excel, APIs, and cloud-based platforms.
- **Performance Optimization:** Enhance the performance of reports and dashboards by fine-tuning DAX queries, optimizing data models, and managing large datasets.
- **Collaboration:** Work closely with business analysts, stakeholders, and other teams to understand and define reporting requirements.
- **Data Governance:** Ensure data accuracy, security, and compliance with organizational standards and best practices.
- **Training & Documentation:** Provide training to end-users on Power BI functionalities and create documentation for dashboards and processes.

WordPress CMS Developer (Website Traffic Analyst)
At GrowBusinessforSure
Oct 2022 - Oct 2023

- Managed backend dashboard operations using C-panel, WHM, Webmail, and domain hosting.
- Developed various types of websites, including e-commerce, B2B, blogging, portfolio, event, personal, LMS, school management, and wedding websites.
- Implemented Google Analytics and SEO tools to monitor and analyze user data, as result increase in website traffic.
- Utilized data analysis tools to track and optimize website performance.
- Created weekly reports to present findings to management, optimizing data-driven decisions
- Conducted multiple testing on different design elements and analyzed results to enhance user experience.
- Created Excel dashboards to report key metrics and trends to stakeholders, contributing to improvement in conversion rates.
- Compiled weekly reports to present insights to management, facilitating data-driven decision-making.

Personal Project

Bank Loan Data Analysis: Bank Loan Data Insights and Risk Management, Insights for Better Decision-Making

You Can Overview the folowing insight: **MS-Excel Project**   Github Link

Focused on data insights and risk management, with key insights in Loan Applications, Credit Reports, DTI checks, Risk Assessments, Loan Agreements, Fund Disbursement, Repayment, Portfolio Management, Fraud Detection, and Profitability Analysis.

E-commerce Data: Driving Growth and Customer Engagement   **Power BI Project**   Github Link
You Can Overview the folowing insight:
Provided insights into growth and customer engagement using metrics such as Profit, Sales Amount, Quantity Sold, Top-Selling States, Monthly Profit-Loss Trends, Payment Modes, and Top Customers.

Certification

Prompt Engineering for ChatGPT course completion certificate	**Certification Link**
Data Analytics using Excel	**Certification Link**
Data Analytics using Microsoft Power BI	**Certification Link**
